Crepe Makers - Gas

Models: KCMG-1RND, -1RCT, -2RCT

The Hatco®/Krampouz® Gas Crepe Makers cook continuous, excellent-quality cepes for commercial kitchens and display cooking locations. The adjustable temperature control enables operators to cook consistent quality crepes from a variety of different batters. The exclusive, large diameter 8-branch burner provides exceptional heat distribution over the entire griddle for even and fast cooking.

Standard features

- The Gas Crepe Makers come set for natural gas hook-up, and includes orifices for propane conversion
- Stainless steel frame, with a cast iron griddle, is designed for quality and durability
- Featuring large diameter 8-branch burner(s) that give a temperature range of up to 570°F (300°C). The burners insulation system prevents heat loss and contributes to even heating and cooking performance
- Gas crepe makers are equipped with a heat-activated safety thermocouple that will cut off gas supply to the unit if the burner flame goes out accidentally
- Single or double griddle crepe makers
- Griddle diameters are 15.75" (400 mm)
- Comes with a spreader and spatula
