

From a Heated Well... to a Heated Shelf

The Hatco Heated Well Covers establish versatility for hot food bars by converting our Modular/Ganged Heated Wells or Modular/Ganged Slim Heated Wells into heated shelves. The heated well covers are designed to sit on top of the modular unit — for the most efficiency remove accessory food pans — to create a heated space for operators to hold prepackaged, preheated foods at safe-serving temperatures for self-serve purposes.

- Must be operated in dry mode
- Available with your choice of three simulated stone surfaces
- Sturdy stainless steel frame
- Simulated stone surface measures:
  1-Pan Well Cover, 9⅞" (251 mm) W x 17⅞" (454 mm) D
